STEP 1

Connect the Frame Rails

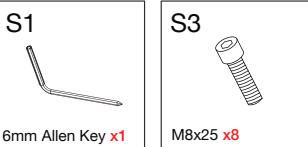

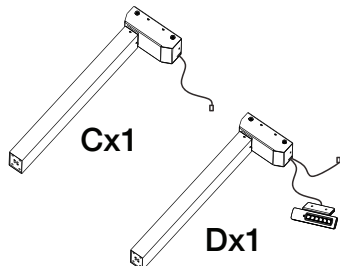

Connect frame rails (A, B) with screws (S2). Tighten using Allen key (S1). Choose the correct frame rail position based on the desktop length.

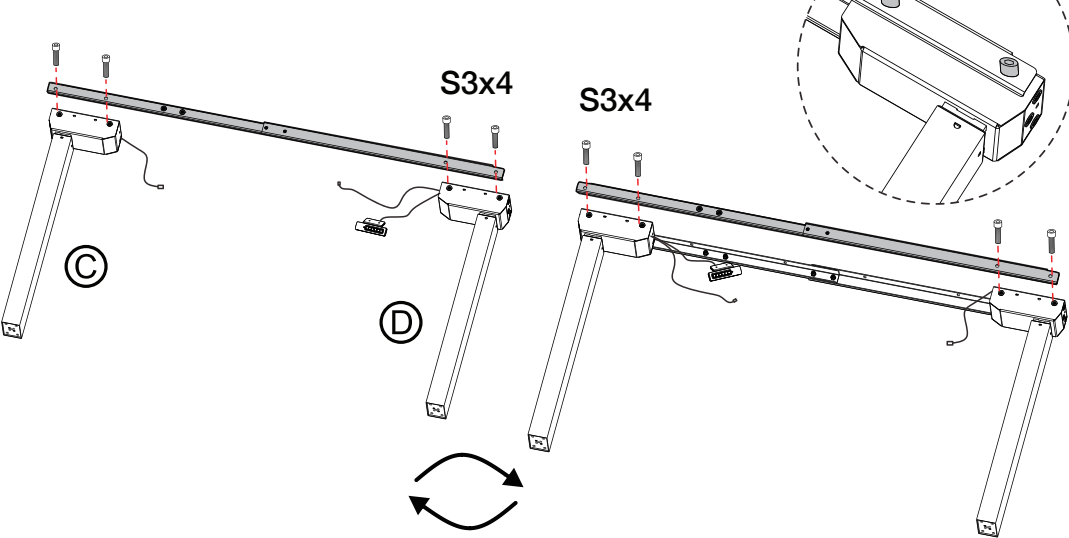

STEP 2

Attach the Leg Frames

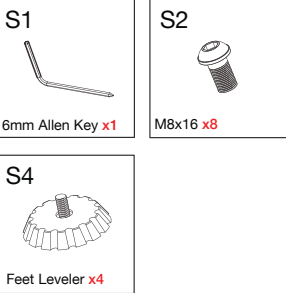

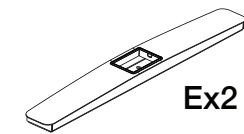

Connect leg frames (C, D) to the frame rails with screws (S3). Tighten using Allen key (S1).

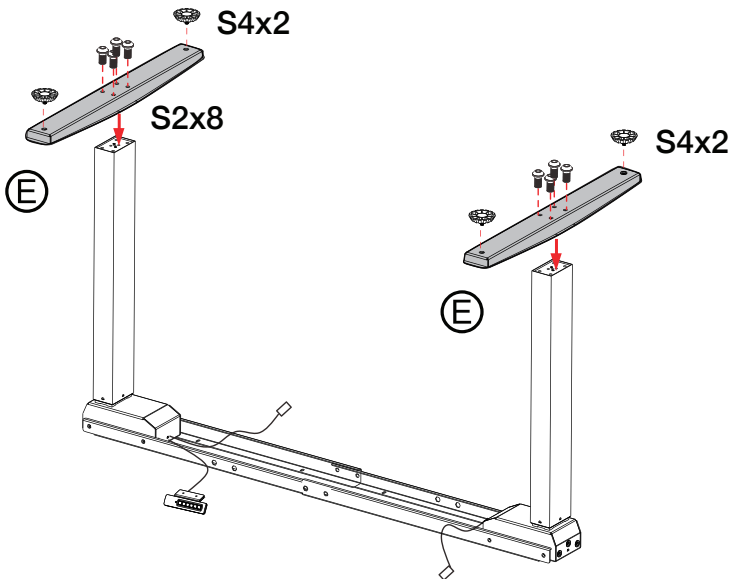

STEP 3

Attach the Desk Feet

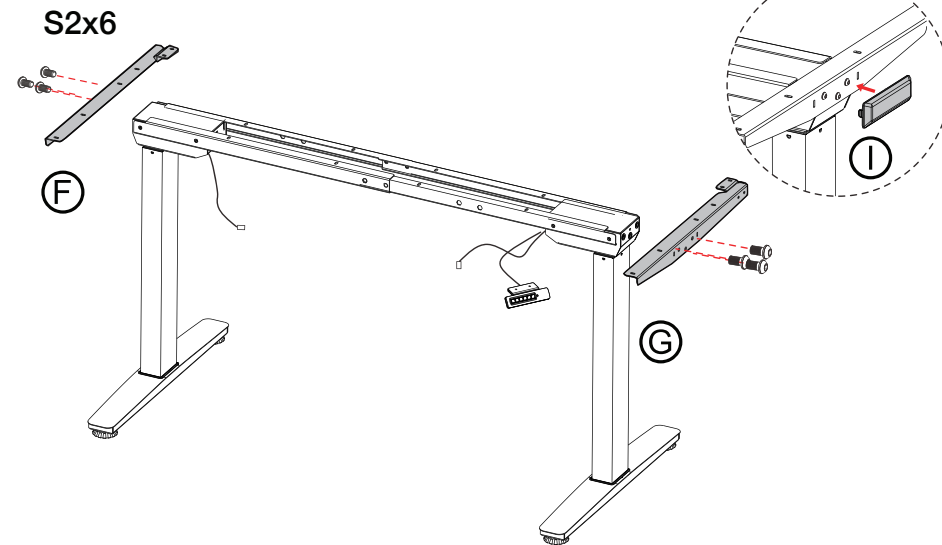

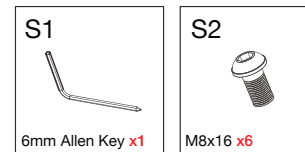

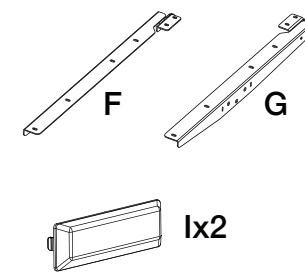

Connect desk feet (E) to the leg frames with screws (S2). Install feet levelers (S4).

STEP 4

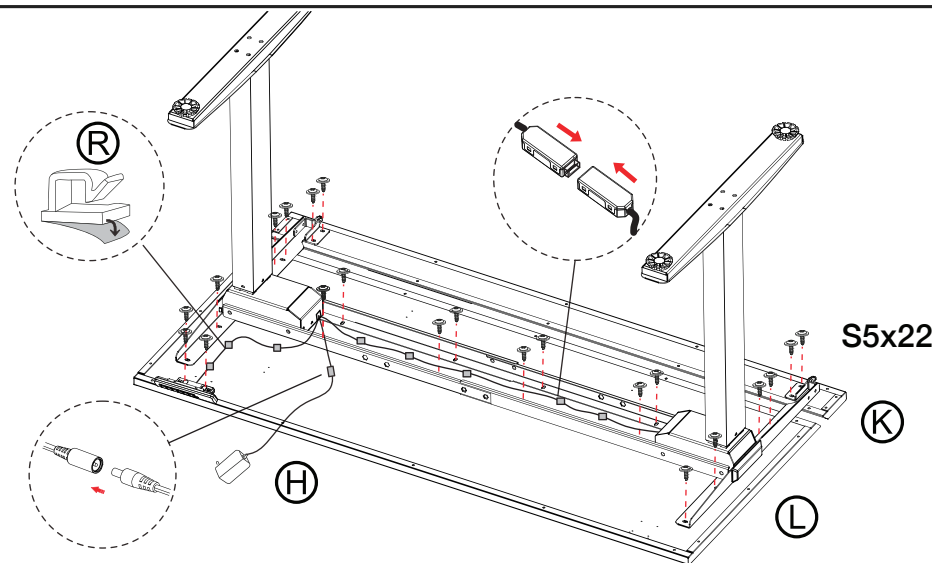

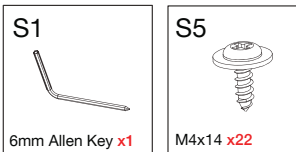

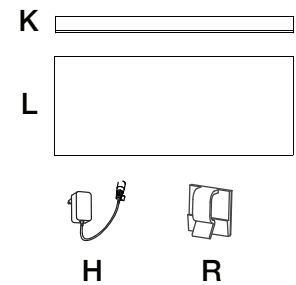

Install the Side Panels and Side Plastic Caps

Connect the left and right side panels (F, G) to both ends of the frame with screws (S2). Insert side plastic caps (I).

STEP 5

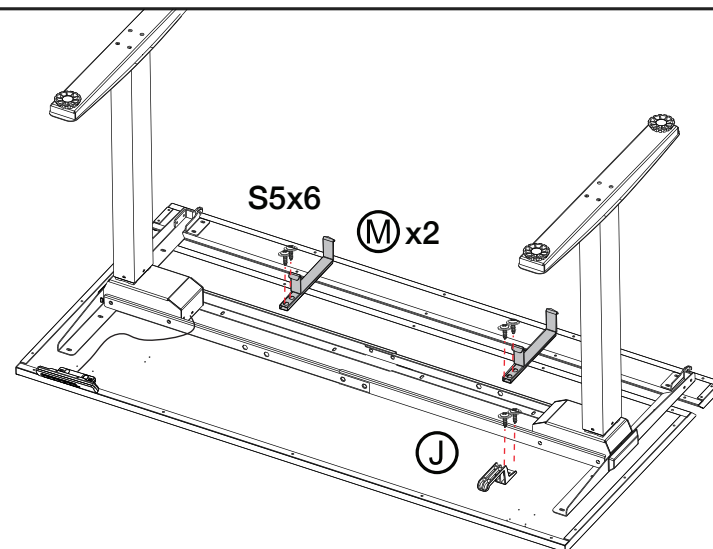

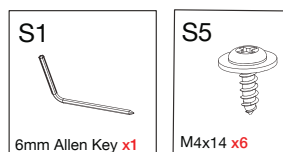

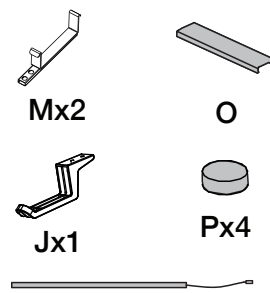

Secure the Desktop and Connect Cables

Place the frame onto the rear and main tabletops (K, L) and secure it with screws (S5). Install the power adapter (H) and cable clips (R), then connect the cables.

STEP 6

Install the Cable Tray Brackets and Hanger

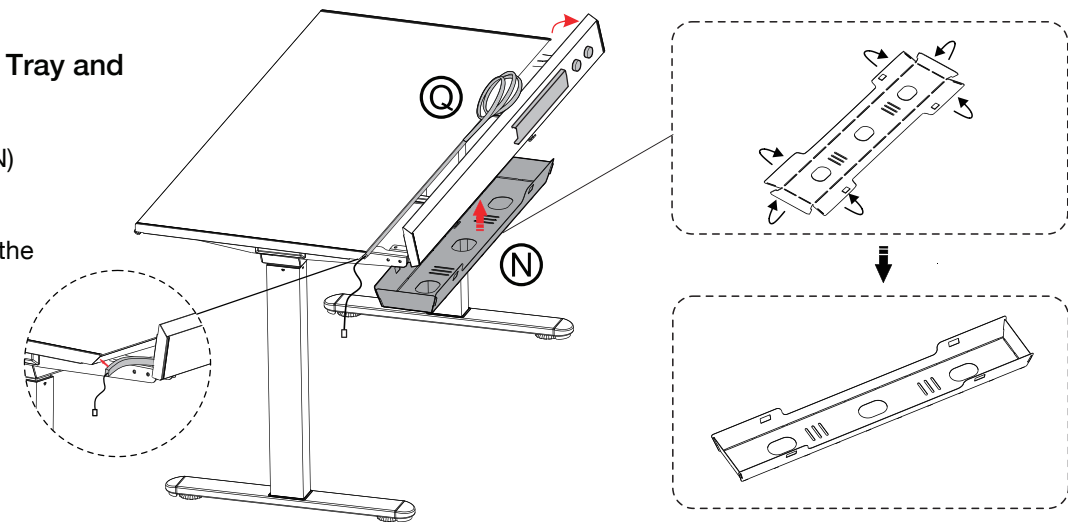

Install cable tray brackets (M) and headphone hanger (J) under the tabletop with screws (S5). Attach the magnetic cable organizer (O) and magnetic cable holders (P).

STEP 7

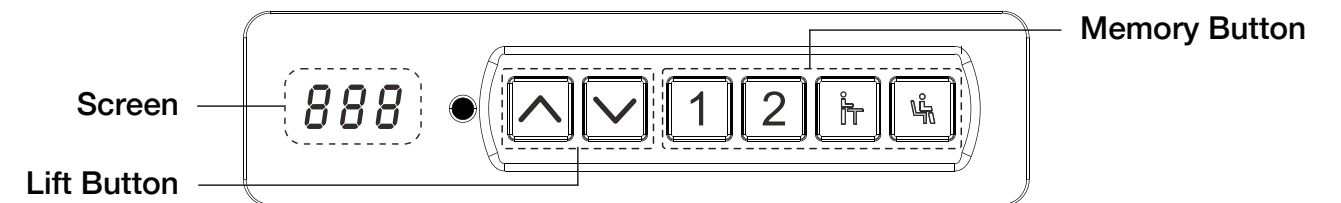

Install the Under-desk Cable Tray and RGB Light Strip

Install the under-desk cable tray (N) onto the cable tray brackets.

Place the RGB Light Strip (Q) into the cable tray to finish the installation.

Control Keypad Instructions

Up and Down Button Operation

Press the “” button to raise the table. Press and hold the “” button for 3 seconds, then release it to automatically raise the table to the highest level.

Press the “” button to lower the table. Press and hold the “” button for 3 seconds, then release it to automatically lower the table to the lowest height.

Memory Function Operation

The “” button is set to the minimum height by default.
Custom Setting: Raise or lower the table to the desired position. Press and hold the button for 3 seconds until the screen flashes, indicating that the setting has been saved successfully.

The “” button is set to the maximum height by default.
Custom Setting: Raise or lower the table to the desired position. Press and hold the button for 3 seconds until the screen flashes, indicating that the setting has been saved successfully.
